

HUSEN MANDLIWALA

UI/UX Designer | WordPress & Shopify Developer

Email: mandliwalahusen@gmail.com

Phone: +91 9687042572

Location: Dahod, India

Professional Summary

UI/UX Designer with 2+ years of experience designing user-friendly websites and digital interfaces. Skilled in Figma, wireframing, prototyping, user flows, responsive design, UI design, and design systems. Experienced in designing websites, landing pages, e-commerce interfaces, and mobile-friendly layouts with a focus on simple navigation, clear visual hierarchy, and good user experience. Comfortable working with clients and development teams to understand requirements, improve designs, and turn ideas into practical digital experiences.

Professional Experience

Pixel Petals — UI/UX Designer & WordPress / Shopify Developer

Feb 2026 – Present

- Design user-friendly website and web application interfaces in **Figma**, focusing on clear layouts, easy navigation, and a smooth user experience.
- Create **wireframes, user flows, prototypes, and high-fidelity UI designs** based on project requirements and user needs.
- Design responsive interfaces for **desktop, tablet, and mobile**, maintaining consistent layouts, typography, spacing, and visual hierarchy.
- Create and maintain **reusable UI components and design systems** to keep designs consistent across different pages and projects.
- Work with clients and developers to understand requirements, collect feedback, and improve designs before development.
- Develop approved UI designs using **WordPress and Shopify**, ensuring the final website matches the design and works well across devices.
- **Projects:** Carbiforce (UI) | Meri Bek (UI) | [St.mary](#) (UI & Html)

Pixel Petals — UI/UX Designer & WordPress / Shopify Developer (Contract)

Mar 2025 – Jan 2026

- Designed **website interfaces, landing pages, e-commerce pages, and business websites** in Figma with a focus on usability and clean visual design.
- Created **wireframes, user flows, prototypes, and high-fidelity designs** to plan website structure and improve the overall user journey.
- Applied **UI/UX principles, responsive design, typography, spacing, color, and visual hierarchy** to create clear and easy-to-use interfaces.

- Reviewed existing websites and identified **UI and UX issues**, then improved layouts, navigation, content structure, and user flow.
- Worked with clients to understand their business requirements and converted their ideas into practical and user-friendly website designs.
- Converted approved designs into responsive **WordPress and Shopify websites**, maintaining consistency between the Figma design and final website.
- **Projects:** **Raj IT Solutions** (UI) | [EaseZorb](#) (UI & Wordpress) | [Shopaarel](#) (shopify)

Techomega Solutions — UI/UX Designer & WordPress Developer (Contract)

Aug 2024 – Jan 2025

- Designed website layouts and user interfaces in **Figma**, focusing on simple navigation, clear content structure, and a consistent visual style.
- Created **wireframes, page layouts, and UI components** for business websites based on project requirements and client feedback.
- Designed responsive layouts for **desktop and mobile screens**, ensuring a consistent user experience across different screen sizes.
- Worked on improving existing website designs by refining **spacing, typography, navigation, content hierarchy, and overall usability**.
- Collaborated with the team to understand project requirements, make design changes, and prepare final UI designs for development.
- Developed and customized **WordPress websites** based on approved UI designs using HTML and CSS where required.
- **Projects:** [Premium Corn Processing](#) (UI & Wordpress) | **Mirrors** (UI) | [Burgundy Blue](#) (Wordpress)
